### Professional Summary

I'm a junior biomedical engineer with passion for the application of engineering principles to enhance the quality of day-to-day life.

## Work Experience

**Junior Technician, Deed Technologies**

09/2025 - 10/2025

- Refurbish computing hardware devices
- Install OS and proprietary software on refurbished units
- Repair and service IT hardware devices

Reference: Edwin Wagura - 0723391572

**ETR Machines Technician Intern, Dejavu Technologies**

06/2025 - 08/2025

- Service and repair faulty fiscal machines
- Clean up JSON payload for financial data sent to KRA APIs
- Remote technical support for setting up and troubleshooting ETR machines

Reference: Johnson Wafula - 0707946445

**Backend Software Engineer Intern, Javan Informatics**

06/2023 - 03/2024

- Build the backend app of a fintech app
- Testing the code base of the app
- Maintaining the code base the app

Reference: Kennedy Gathua - 0718488252

**Medical Equipment Service Engineer Intern, Apicalmed LTD**

01/2023 - 04/2023

- Diagnosing faulty equipment
- Calibrating medical equipment
- Maintenance and servicing of biomedical equipment

Reference: Johnson - 0715891745

## Education

**Bsc. Biomedical Engineering, Kenyatta University**

08/2019 - 12/2024

- Instrumentation
- Signal Processing
- Programming

**Bachelor of Economics, Kenyatta University**

08/2017 - 08/2019

- Economic Theory
- Business Law
- Econometrics

**Kenya Certificate of Secondary Education, Alliance High School**

02/2013 - 12/2016

## Skills

- Programming in Go, C++, Python
- Building backend systems using Golang, Fiber, and Postgres
- Using GitHub for version control
- Implementing GitHub Workflows for CI/CD
- Deploying Web Apps on Render, Leapcell, and Miget
- Circuit Design and Analysis
- Electronics Repair
- Rapid Prototyping with Arduino, esp32, raspberry pi
- Communication and Collaboration

## Volunteer Experience

- Journey ICC Church, 06/2023 - 01/2026
- Javan Informatics, 06/2023 - 12/2023
- Kenya Orient Insurance Ltd., 01/2017 - 08/2017

## Personal Projects

**Bimapap Insurance Management Platform**

06/2024 - 07/2024

- Built a web app in Go and React for managing insurance.

**Personal Medical Record App**

09/2024 - 01/2025

- A personal database for managing personal health records and can be integrated with health monitoring sensors

**Medical Equipment Service Scheduling System**

12/2024 - 01/2025

**Journey Family Church Website and Content Delivery App**

01/2025 - Present

## Certificates

Bachelor of Science in Biomedical Engineering, 08/2019 - 12/2024

Kenya Certificate of Secondary Education, 01/2013 - 12/2016

## Languages

- English (100/100)
- Kiswahili (80/100)

## Interests

- Programming
- Electronics
- Automation
- Healthtech
- Fintech
